

GOJO

Your Trip starts here

GOJO

Overview

GOJO is a digital tourism app designed to enhance travel experiences in Jordan by connecting tourists with local companies through an easy-to-use platform

1 It allows users to book trips, activities, and events effortlessly

2 It allows companies with tools to manage their services

Existing Systems

1. Jannah.jo

Main Problem:

- Lacks a user login feature
- Real-time notifications

2. Tashat :

Main Problem:

- Does not support user feedback systems or in-app booking
- Lacks a login mechanism
